PERSONAL PROFILE

I am a fresher and a qualified and professional web developer. Strong creative and analytical skills. Team player with an eye for detail. A highly organized and hard-worker to develop our company

PROJECTS

E-commerce site - Amazon clone

- This is an e-commerce website. It's an MERN stack based project. It's working like an amazon website.
- Currently I have been developing products filter, pagination, searching products in front-end.
- I have been using password correction api, login api, error handlers api and authentication, order products
- api, product data update api. I'm using in this project function component method.

ZOMATO clone website

- I'm using in this project class component. It's like a food order site.
- I'm using in this project MERN stock.
- I have been using in this project filter page, details page, pagination, search, routing in my front-end.
- I'm using in my back-end product filter api, location api, meals type selecting api, restaurant selection api.
